

"The East African Antarctic Orogeny and the Amalgamation of East and West Gondwana: An East Antarctic Retrospective"

**Dr. M. Satish-Kumar**  
**Institute of Geosciences**  
**Shizuoka University, Japan**

Dr. Satish-Kumar's research interests and activities are focused on the geodynamic and geochemical evolution of continental crust. Major thrust is on identifying new petrological and geochemical indicators that help in imaging the vast expanses of unexplored Earth's interior.

Tuesday, September 4  
5:00pm  
Michigan Tech Campus  
U113 M&M Bldg.
